	16IR	K	3.0	ISO	KMR

Promotion is valid only for the specified items. Different combinations are possible e.g. 10 x ISO, 6 x Type B and 4 x Type K.

 Please choose **minimum** 20 thread turning plates,

maximum 10 different thread turning plates with 2 pieces each (packing unit = 2 pcs.).

Supervised by:

Standard

Thread Turning Insert with ground profile, with more than 20 different thread Profiles. Available in 8 Grades which can be used on all kind of Materials.

Type B

Thread Turning Insert with ground profile and Chip Breaker, providing a much better chip control for internal and external threads.

Type K

Sintered Thread Turning Inserts with chip breaker for high performance in a wide range of materials.

Features:

- effective chip control
- optimal edge security
- Inserts can be used with standard threading toolholders

CPT TOOL WIZARD

CPT offers an online software for Thread Turning and Mill-Thread to assist threading tools users to select and apply the correct tools to machine threads on CNC machining centers.

The software is available on our website:

www.cpt-gewindewerkzeuge.de or directly with the QR-Code:
